

DRAFTER'S NOTE
FROM THE
LEGISLATIVE REFERENCE BUREAU

LRBa0816/2dn
ARG:eev:rs

September 19, 2013

ATTN: Ginger Mueller

The attached redraft reflects the two changes we discussed by e-mail.

It also incorporates one other change. The language on page 2, line 19, was slightly revised to reflect the fact that DOT will be working from a cost estimate, not actual cost. DOT pointed out that it will not know the actual cost of production of the special plates until the plates are produced, and the plates cannot be produced until sufficient contributions are received. Therefore, when DOT receives contributions sufficient to cover its final estimate of costs, DOT will begin the process of producing the plates. The actual cost will only be known in hindsight.
